The Journey

We recognize that in order to be a top-quality Facilitator, you need to work on yourself first. Together, we will work through your life story, identify restriction points, resolve what holds you back and reframe your biggest challenges so that they become your greatest gifts!

We will:

- Work with you to heal your inner child and other parts of you that need your attention and love.
- Encourage you to become the most authentic and empowered version of yourself that you can be.
- Help you discover the tremendous resources that lie inside you in your subconscious, as well as develop new sensitivity and awareness of the super-conscious so that you can offer the safety that a breather needs to get the most out of their experience.
- Use a unique Alchemy meditation throughout the course to connect you to your felt sense (intuition of the body) so that you can guide your breathers from a higher place of knowing.
- Cultivate embodied presence, which will allow you to handle the myriad of intense situations that may arise during a Breathwork with ease and grace.

“

Going through the AOB Teacher Training has been one of the best decisions of my life. I am forever grateful and will continue to recommend others try this training as the greatest thing we can do for ourselves and humanity.

- James Sol Radina

A Global Community Like No Other

Our number of Breathworkers is growing exponentially worldwide, and yet we still share a supportive family atmosphere. Our study-buddy and mentor system gives you the chance to offer and receive support whenever you need it.

You will:

- Have your own private forum to share experiences, learnings, and teachings with your fellow students.
- Have a study buddy that you will develop and share your skills with; and hold each other accountable to show up in exactly the way you need to, in order to be a successful Facilitator.

- Be invited to join our Current and Former Student Hub, which connects you to Facilitators, mentors, and Masters of Breath, who are happy to share and guide you.
- Be automatically registered for an Alchemy membership which includes free biweekly Round Table talks with Anthony. This is the perfect time to get direct feedback, assistance, and wisdom from the amazing community we have created.
- Be invited to join our biweekly Alchemy Meditation sessions, to deepen your intuition, connect with your felt sense and create space for what wants to be born into existence

The Tortoise and the Hare

Intensive trainings are great, but there comes a point when you just can't absorb any more information. With little time to explore, experiment, and embody the knowledge, rapid trainings don't support you actually going out there to practice. Experience shows that there is a high fall-out rate and much of what is taught is forgotten.

We do things differently at AoB. We use the Drip-Feed, Cross-Pollination method (DFCP), to make sure you can absorb every part of what we teach. Then you get to explore it, experiment, and embody what you learn. This builds confidence, technical skills and leadership capabilities that are fully embedded into your awareness. The curriculum is purposefully crafted to ensure all of our graduates develop naturally into their excellence.

Our Unique Learning Platform

At Alchemy of Breath we have created an online platform to further support your learning experience. This easy to use, professionally developed platform contains:

- All class recordings, and supporting documents.
- An Inner Journey Workbook.
- Documents that will support you both during your training and also during the building of your practice.
- Physiology, anatomy, and trauma webinars.
- Breathwork summit interviews from leading Facilitators around the world.
- And more!

Our specialized training system is designed to:

- Develop your skillset immediately.
- Build confidence.
- Give you the time you need to absorb your learnings and put each stage of development into practice.
- Make the learning process fun, engaging and flexible.
- Develop your intuitive ability. There is no guru in AoB; the wisdom-keeper is inside you and our 23 seminars and 7 inner journey classes one each week, every week. This is 400hr training. These classes do not include the in person BreathCamp which is a week long residential.
- Guide you into the leadership role that facilitation requires.
- Start you off holding space for each other right away, and give you plenty of time to transform your challenges into strengths.

“ Every time I lead a Breathwork I feel so incredibly grateful for the ability to hold space for such powerful transformations and for Anthony, the Masters, my mentors and the entire AoB family for their wisdom, guidance and support.

If you are considering taking this training, just do it! I really don't think it would be possible to find a better, more thorough training. The focus on inner development, the felt sense and receiving before you give, really helps to set you apart as a Facilitator, and you will graduate fully in your power, shining a light that inspires others to shine their own.

- Megan

PS. Here's what some of our graduates have to say about their experience:

“

Inspiring and illuminating on every level and the recordings meant that if for some reason I was unable to make a session I still had the opportunity to watch, practice and learn. A heartfelt thanks for creating this course and making it accessible to everyone everywhere whatever their geographical location and whatever their other commitments may be. The course exceeded my expectations and has been brilliantly put together. I loved the mix of the structured syllabus, the free-flowing conversation of the group, the music and of course the actual Breathwork. I believe it to be the only of its kind out there and I highly recommend it!

- Sapphire

“

My most profound experience from the AoB Facilitators Training with Anthony was the amazing commitment, presence and genuine gentlemanly support he had for the training and each of us. Balanced in this rare precious container which he masterfully creates, I was able to go to the depths of myself and find liberating strength in my vulnerability – among other expansive enlightening awarenesses.

- Senaja

“

The training is definitely something I felt called to do after Seeds of Alchemy 2-day immersion. Breathwork continues to open doors and the training allows me to fully investigate and be supported in my experiences. I feel like I am growing and opening towards life's untapped potential. Also, becoming part of an inspiring like-minded community on a global scale is a great feeling!

- Hannah Goodman

“

I have done many trainings over the years in my quest to heal and help others, but the AoB teacher training was by far the best thing I've ever done for myself and for advancing my life path. I felt so held and supported the entire time and the safe space and deep inner exploration which was encouraged as a part of the curriculum allowed me to work through and overcome much of my conditioning from childhood and let go of behaviors and beliefs that no longer served me. I emerged a much stronger, happier, more confident and optimistic version of myself.

- Megan

“

Starting the training with AoB was one of the best decisions in my life. To meet up consistently over a long period of time, really gave me the opportunity to dive deep into my own inner inquiry. It was so much more than training to me. It's deep and healing work. It was a connection to myself and to the group. It was an expansion, stepping out of my comfort zone, it was growth; it was one step closer to becoming the person I am meant to be. I found my purpose! Anthony's beautiful way of teaching, and his artistic and poetic way of using his words really inspired me and still does. His ability to create such a solid and safe container, helped me a lot to find the strength to dig deep. I have nothing but love for this man and I will be forever grateful and proud to call him my teacher.

- Marianna Manderscheid

“

My Alchemy of Breath Training was such a deep experience! What set this program apart is the love and support I felt no matter what I was going through.
