Whispers of the Breath

Experience restfulness and deep healing by following the whispers of your breath. When I breathe consciously, I enter a space of trust, vulnerability, honoring, kindness, and intimacy with myself. This allowance of myself as I am is the foundation of Deep Healing. Would you like to be in allowance of you? If yes, let's listen deeply to these whispers of our breath.

Margarita Meier

I Am...Brave

These two words "I AM..." are a powerful statement that shows how I see myself and how I see the world around me. The outer world (how I experience it) is a mirror of my inner world. Only through constant observation, I will get aware of this inner dialogue - often not so friendly. Is this the relationship I desire with the most important person in my life (me)? Who do I want to be? What is my impact on the community with every word I speak and every action that I take? Let us breathe into observation, acceptance, bravery, and love.

The Art of Letting Go

Let's breathe together to see what can transform when we give ourselves permission to let go and trust the breath. Through this surrender, we can create space for what we truly want to experience in our lives. We don't need to have everything under control, sometimes you just need to breathe, trust, let go and watch what happens from a more open space. Let go of what no longer serves you and trust that life is fully supporting you.

Give Back To Take More In

Thoughts, feelings, emotions, sensations - what if we could just exhale those we want to be free of? What if there would be new ideas coming into us with each next inhale? A new thought with new air? A new perspective with fresh oxygen? This breathwork session will focus on creating more space for the new by exhaling what does not serve you. You will be given a choice to just breathe and feel all that appears. Create space for the change by simply staying with your breath. The more air you can take, the more you will be able to give back. The more you will be able to give back, the more space you will create to take new in.

Body-Centered Transformation and Breathwork

This talk will present an overview of the theory and practice of body-centered transformation (G.&K. Hendricks). It will explain how transformation emerges from shifts in the quality of internal relationships between different elements of the human psyche. A framework of strategies incorporating breathwork will be introduced, which may help achieve such internal shifts and enable lasting change. This shows how breathwork integrates into somatic psychotherapy for personal transformation and development.

Fear Is Your Greatest Teacher

Be curious about your fears. They have important messages for you. Avoiding them doesn't make them go away, they always follow you around in your back pocket. When you face them and feel them they become smaller and smaller, and eventually they disappear. Diving into your fear teaches you so much about yourself!! Together, in a safe space, let's feel and breathe our fears and listen to what they have to say.

Breathwork and Psycho-Spiritual Techniques As Wonderful Healing Companions

In the breathwork community, we are familiar with how breath increases the efficacy of our internal processes and our path to wholeness. In what ways does psycho-spiritual awareness, integrate, enhance, and deepen the breathwork experience?

Why is it important for breath workers to do a lot of deep inner and shadow work as an integral, intrinsic, and necessary part of healing, co-creation, and awakening?

How can we learn to hold the tension of opposites, the polarities that live inside of us, in ways that bring more wholeness and balance to ourselves and others? We will explore these topics and more in this special presentation.

Fear is at the root of many of our blocked emotions. With the support of our breath we can access these emotions in a safe way and allow them to find movement within us. This movement creates the potential for the releasing and letting go of the blocked emotions, helping to overcome anxiety and depression, and relieving stress. The flow of life becomes smoother giving us the ability to move through challenges with more ease and grace.

GUEST TEACHER

Alison Waring

Having been taught that the body was self-healing, Alison questioned why the allergic asthma she suffered remained even though she had a healthy diet and generally looked after herself. Studying Osteopathy, Naturopathy, and Hypnotherapy all helped. The Buteyko method held the final piece of the jigsaw. Having overcome an asthma attack in 3 minutes using a technique she blended from yogic breathing and the Buteyko method she went on to create Dynamic Breath Release and write her book *Breathe with Ease*. She now teaches Buteyko and Rebirthing breathwork. She is a lifelong student and teacher of natural living and breathwork.

Michelle Well

Michelle has been driven all of her life to find solutions to suffering. Afflicted with ME/cfs in acute and chronic phases, she has battled to have quality of life and to be 'valid' in her contributions to 'good cause', working as a healer, teacher, and therapist over 3 decades. During her training as a facilitator and practitioner with the Alchemy of Breath she has realized that her condition is not to be healed but accepted, in its constraints, and it is by this acceptance that she can manage her condition and improve her quality of life: the paradox of healing. From this empowered position she is finding that she can alleviate her symptoms and apply all the wisdom she has gained in her vast life experience. From this position, she can now share that wisdom. It is a new beginning, a rebirth.

Sofia Livingstone

"It is foolish to think that we will enter heaven without entering into ourselves" Theresa d'Avila

Sofia lives in Liguria, Italy with her partner Ardhan and four-footed animals, on an isolated olive tree farm, growing perfumed roses and creating natural produce from the land.

Sofia has undergone extensive and long trainings in many modalities specifically with Transforming Dialogue and Shamanic Ritual Family Constellation and more recently with Alchemy and other breathwork. She has been on a long journey to heal individual and inter-generational trauma with the 'brutal grace' of chronic, debilitating illness as her initiation and greatest teacher.

She is a storehouse of knowledge but it is the dark nights of the soul and 'burn out that initiated her as a wounded and mystic healer, leading her to a path of spiritual embodiment and divine sovereignty.

She now calls herself a 'trauma-informed, shame midwife', as she knows that all lightworkers and empathic souls have a wounded healer pattern, which is about making the darkness conscious in order to be a vessel of grace. Relentless shadow work and belief in her own happy ending, has led her to find that radical self-trust is the gift of darkness.

Sofia's mission is to help people see how they can reinvent themselves over and over. As an enlightened witness, she acts as a bridge to help jump-start other beating hearts, so that they reconnect with the intimate territory of their soul.

Because of her own lived experience Sofia guides others with tenderness and compassion, to reclaim their vitality and aliveness and see their lives from a multi-dimensional perspective, recognizing how their greatest wounds, these sacred obstacles, can and do become the golden treasure and the healing medicine they can offer to this broken world.

 **SESSION TOPIC****Breathwork and Psycho-Spiritual Techniques As Wonderful Healing Companions with Ardhan Swatridge and Sofia Livingstone**

In the breathwork community, we are familiar with how breath increases the efficacy of our internal processes and our path to wholeness. In what ways does psycho-spiritual awareness, integrate, enhance, and deepen the breathwork experience?

Why is it important for breath workers to do a lot of deep inner and shadow work as an integral, intrinsic, and necessary part of healing, co-creation, and awakening?

How can we learn to hold the tension of opposites, the polarities that live inside of us, in ways that bring more wholeness and balance to ourselves and others?

Those of us who have experienced breathwork, know that change and transformation can happen without talking about anything. But..... it works BOTH WAYS....because the increasing psycho-spiritual understanding and awareness of polarities and energies inside us, helps substantiate and embody our experience, bringing greater clarity, healing, and wisdom.

We both trained for many years in Transforming Dialogue which is an accessible and powerful tool for conscious transformation, a person-centered approach for psychological exploration, and a creative journey of discovery into yourself. We will be working with the Three Models of consciousness: The Awareness state, the Selves, and the Ego/Aware Ego State, as well as touching briefly into The Laws of the Psyche: Judgements and what is underneath. With practical demonstrations.

When we can stand on both feet, with our arms around our opposing energies, we find ourselves no longer reacting unconsciously from default patterns and behaviors, projecting these disowned qualities out onto others, usually those we either overvalue or deeply dislike. When we bring awareness to how we are hooked and identified, we can embrace and respect both strength and vulnerability; that of others, as well as our own, standing in sovereignty as change-makers and impacting society in a huge way.

SESSION TOPIC

Living Fully Beyond the Practice

How can your lifestyle compliment your breathwork practice and inner healing? This is a 45-minute presentation discussing how we can go beyond the breath journeys and practices and have a lifestyle that is in alignment. I will be discussing Diet, Movement, and Connection and will touch on many ways we can live full, nourishing lives.

I love breathwork for taking my attention inward, feeling feelings, releasing energy and emotions, spending intimate time with myself, healing wounds, and for connecting with my heart and soul. For years I have been driven to feel my best and show up as my best self and in this presentation, I will be highlighting some of my learnings around lifestyle, particularly on living a full and nourishing life. Breathwork is a beautiful tool and practice, but I have found it most helpful as part of a balanced lifestyle. Having a complimentary diet, regular physical movement, and connection with others allows the benefits of breathwork to be fully integrated and felt. Our diets play a huge role in how we feel and I will be discussing nutrition, gut health, cleansing, fasting and mindful eating. Our bodies are meant to move and I will touch on different forms of movement such as ecstatic dance, forest bathing, yoga, and HIIT. Lastly, I will discuss the importance of connection and ways we can cultivate that through gatherings, circles, ceremony, and women/men circles.
