LIVE POWWAFULLY is a community Christine is creating for those wanting to live fully and in alignment with their heart and soul. We all have the power to breathe, to feel, and to live from this place. Christine is also part of the AoB team, is a bit of a nomad but is based on the west coast of Canada and is excited to share her love of breathwork with the world.

STUDENT

Eszter Rózsa

Eszter is a teacher and lawyer. She has been on a conscious spiritual journey and re-discovering her unique soul essence for the past 17 years. Before committing herself to becoming a breathwork facilitator, she extensively studied the works of various spiritual teachings and leaders. She loves nature and embraces infinite creativity. Eszter lovingly guides and holds space for her breathers to experience a natural unfolding of their self-healing process, so that they can become whole again in body, mind, and soul.

SESSION TOPIC

Your Heart as Your Resource

In our daily lives, we tend to see the world through our thoughts rather than tuning into the present moment by being fully aware of how and what we feel. Today, we are going to connect to our Heart Space and explore the hidden gifts that lie in each of our feelings and sensations.
